

Meet Symbio.™

Taking you beyond smart to smarter, the multitasking Symbio™ whole home solution is a security camera, smart speaker, smart home hub and more—empowering you to manage your home with your voice or a simple touch.

Six smart home functions in one easy-to-use device.

Security Camera
Keep an eye on what matters most.

Intercom
Communicate to family members from anywhere.

Voice Control

Use Amazon® Alexa with Toshiba's enhanced voice recognition technology to ask questions, control music, manage devices and more.

Smart Sound Detector
Monitor baby. Get alerts from legacy smoke detectors.

Smart Speaker
Enjoy your favorite music, news, ebooks and more.

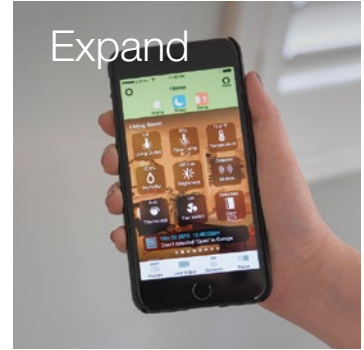

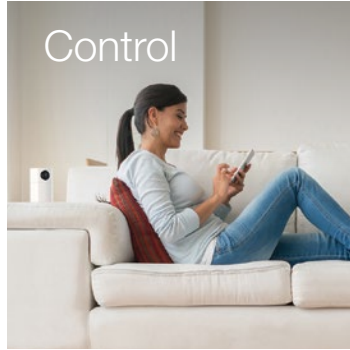

Smart Home Hub
Add new smart home functions—as many as you like. Control everything with a single app.

See how much Symbio™ can do.

Why clutter your home with multiple devices for various functions, when the Symbio™ Smart Home Solution does everything you want—all from a single device and controlled by a single app? And with the simple, single-view application with expandable capabilities you'll enjoy total control over your smart home today and tomorrow.

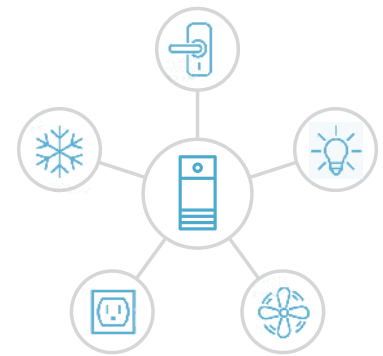

Expand and create your ideal smart home.

Want to add more smart home features over time? Just say the word. Symbio™ works with many connected devices powered by Z-Wave® or ZigBee® wireless technology. With hundreds of devices to choose from, you can expand your smart home technology all at once, or one room at a time.

Control everything with a single, easy-to-use app.

The Toshiba Smart Home App turns your smartphone into a remote control for all your Symbio™ connected smart home devices. Whether you're in the house, at the office or even on vacation, you've got full control over everything from lights and music to door locks and temperature settings—all with a single, user-friendly app for iOS or Android™ devices.
